

- what do I want to learn or understand better?

I have gained a basic understanding of the main concepts of Agile and Scrum. Now I need to apply the theory in practice and to test how the concepts work in real-life development task, such as creating an Android application

- how can I help someone else, or the entire team, to learn something new?

I'm always happy to help my teammates, answer questions and explain stuff.

- what is my contribution towards the team's application of Scrum?

During the Scrum Lego exercise I participated in forming user stories into a product backlog, planning sprints, executing sprints and reviewing them.

- what is my contribution towards the team's deliveries?

During the Scrum Lego exercise I helped build and successfully deliver several user stories, including a bus and two bus stops.
